FIVE CLAIMS ARE SNAPPED UP

Yerington Copper Company Adds Valuable Property to Its Nevada Possessions.

CARISA LISTED IN THE EAST

LOST PACKER HOLDS TWO MEET INGS IN ONE DAY.

The Yerington Copper company's management is exulting over a deal that it has just closed for the purchase of five claims adjoining the seven it previously owned in the Yerington, Nev., copper camp. A wire from camp yesterday advised Manager C. D. Rook-lidge that the last signature to the transaction had been secured and that the deal was cinched.

Some time ago, while prospecting its own territory, the Yerington company discovered that scraping along the southern limits of its ground and paralleling the main vein of its property was another vein, apparently as strong as the one it was developing, some 400 feet to the north. The moment the discovery was made wires were laid to secure the five claims bordering its southern lines. Negotiations had been pending up to yesterday, and when the news came that the deal had been closed there was no little rejoicing, particularly as the ground was secured before the owners had become aware of conditions, which would have been the equivalent of boosting the price to several times what the company has had to pay in order to land it.

Conditions at the property are reported to be improving with every shift, and, in addition to the development. shift, and, in addition to the develop-ment of big bodies of ordinary ore, more

and more high grade shipping material is making its appearance, and not a little is being taken out for shipment.

Material has just been delivered at the mines for the erection of a board and lodging house. This will be rushed to the earliest possible completion, and then the force, which now consists of twelve miners, will be largely aug-

CARISA IN THE EAST.

Some of the Mystery Surrounding Movement in Stock Cleared Up.

Carisa was yesterday listed on the New York curb, and this fact, in con-nection with the report here that all of the heavier interests in the company have pooled their stock on a proposi-tion to sell control of the properties, is evidently what is sending the stock up. Last Thursday's New York Commercial contains an announcement by the brokerage firm of J. J. Bamberger & Co., which explains what is doing on that end. For the benefit of local Denver shareholders in the company, the following paragraphs are culled from the Montgom Mt 55 60 1.15 advertisement:

'Arrangements have been made to list Carisa Copper company's stock of Tintic, Utah, on both curbs next Monday. The stock is selling at this time between 43 and 45 cents per share. I predict an advance in this security that will carry it well above \$1.00 per share, and I expect to see it selling upon the curb almost immediately at above 50 M Pine Nut. Seyler Hum.

"This is not treasury stock nor pro- Stray Dog . moters' stock nor pool stock. It is stock that I am buying for my clients and friends upon the open market. "I am buying it and advising its purchase because I know it is going "I am buying it and advising its purchase because I know it is going up, and I know that my clients will 200 at 75c; 500 at 75c; 500 at 75c, seller thirty days; make big profits by purchasing it now. make big profits by purchasing it now. "The company has a small capitaliza-

value of \$1.00 per share."

ELY CON. GETTING ORE.

News from Ely is to the effect that ore has been encountered again in both the American and Brilliant shafts of the Ely Consolidated Copper company, though in neither has the sulphide copper-bearing porphyries yet been reached. In piercing the lime that overlies the porphyries in that portion of the district, conditions identical with those which prevailed at the Nevada Consolidated company's Ruth mines, which adjoin, have been encountered, and the management of the Ely Consolidated Copper is sanguing that conditions at depth will also prove iden-

The Brilliant shaft is only distant from the Ruth workings about 600 feet, while the American shaft is directly west from the Ruth and right in line with the admitted course of the porphyry deposits.

Preparations are now being made for the installation of gasoline hoists at both the American and Brilliant shafts, which are now crowding the 300-foot mark and making work with a whim days. altogether too slow. Buildings for the housing of men during the winter will also be erected just as soon as the ordered material can be delivered at the

MINING STOCK EXCHANGE.

Beck Tunnel, Carisa and Lower Mammoth Lead Advancing Column.

The week opened on the mining stock The week opened on the mining stock exchange to stronger prices than prevailed at the close of last week, the weak spots being few and far between. "Trading was not particularly heavy, however, a fact probably due to the holding of a political convention during the day. A total of 69,185 shares of stock, with a sell-

LOST PACKER MEETINGS.

Two meetings of the Lost Packer company were held yesterday. In the forenoon, in special session, the shareholders sanctioned the increase of the capital stock from 150,000 to 250,000 shares, the 100,000 shares increase going into the treasury of the company and to be treated as an asset. What will be done with this stock, it was stated after the meeting, was a matter for future determination.

M. J. McGill, manager of the New York Bonanza, who has been east for several weeks, was in the city yesterday to attend the regular monthly meeting of the mine was looking well and that within the next week or so he would probably install the skip hoisting apparatus.

E. G. Rowe, the Chicago director of the Lost Packer company, was on hand for the stockholders' meeting yesterday. He expects to return to Chicago tonight. Fifteen carloads of ore from Tinitic, three from Idaho, two from Colorado and two from Nevada were released from the Taylor & Brunton sampler yesterday morning. for future determination.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$125,000, as follows: Sitver, lead, gold and copper ores, \$29,000; base bullion, \$96,000.

Metal Markets.

Silver, 68%c per ounce. Copper, easting, 19½c per pound. Lead, \$5.75 per 100 pounds.

Mining Notes.

D. H. Peery was expected back from his extended trip to New York last night. erine was at that Stockton proposition yesterday.

The selling price of copper in London yesterday was within less than half a cent of 21c in American money. Three carloads of ore each from Alta, Bingham and Stockton, two from Neva-da and one from Idaho were reported at the Pioneer sampler yesterday morning. The local settling price for copper for the current week, as fixed by the American Smelting & Refining company, is 19½c per pound, a rise of %c per pound as compared with last week.

M. H. Hennessy, who is managing a property in the Bullfrog district, and who has been visiting here and in Park City for the past few days, expects to pull out for camp again tonight.

John W. Royer, manager of the Lucky Dutchman company's properties in the Crescent district, Nevada, returned from

a several weeks' eastern trip on Sunday. He will leave for the mines to note the progress of developments either tonight r tomorrow night.
M. J. McGill, manager of the New York

If anything has been needed to emphasize the opinion in which Utah and Nevada copper stocks are held, it is found in the heavy investments that are being made in them by Utah operators, operators who buy because they know the value of the mines the stocks represent. Another factor which undoubtedly has something to do with the business is the fact that it is now possible to place an order to buy or sell stocks in Boston or New York and have the order executed with greater speed, oftentimes, than a transaction could be pulled off on the local exchange while the call was proceeding.

During the week just brought to a close James A. Pollock & Co. did over \$1,250,00 worth of business on eastern exchanges for local clients, while the orders executed yesterday reached over of single for future determination.

In the afternoon the stockholders met faylor & Brunton sampler yesterday from the Taylor & Brunton sampler yesterday for further determination.

In the afternoon the stockholders met faylor & Brunton sampler yesterday for the purpose of the Boston or Cansolidated and to note the progress that has been made during his three months abspace in the development of the sulphide ore bodies and to see, also of inspecting the mines of the Boston Consolidated and to note the progress that has been made during his three months abspace in the development of the sulphide ore bodies and to see, also of inspecting the mines of the Boston Consolidated and to note the progress that has been made during his three months abspace in the development of the sulphide ore bodies and to see, also of inspecting the mines of the Boston or Sanduel Newhouse.

A stated after the meeting, wear. No Cannolidated and to note the progress that has been made during his three months abspace in the development of the sulphide ore bod

RICH NEVADA-FAIRVIEW ORE

A few days ago the tunnel being important stocks offered a rather sensational spectacle in today's market, but the trading on the whole was dull and uninteresting and prices moved in a sluggish manner. The firm undertone of the market was largely sympathetic with the few notable advances. The only factor in the general situation which could be held to account for the anathetic specusion.

RICH NEVADA-FAIRVIEW ORE

A few days ago the tunnel being driven north in the property of the Nevada-Fairview company's property at Fairview, hit what was apparently the top of a shoot of fine ore, and it was decided to sink in it and learn what it would do at depth. Sunday a dispatch was received at the local offices from Superintendent A. W. Williams advising Manager Grant Snyder that he was taking out ore that assayed \$12 in silver and \$18 in gold per ton.

The dispatch had the right kind of a ring to it and Manager Snyder hustled into his traveling harmess and pulled out for camp on the night train. Additional particulars concerning the strike are promised after his arrival at the property.

Park Mining Notes.

Park Mining Notes.

Park Mining Notes.

Work on the Wildflower will be resumed Monday, Manager Whitehead have been improved more than the week. It is very probable that the fact of the week. It is very probable that the week is not been supported by a supposition of the week. It is very probable that the fact of the week. It is very probable that the profitable results and cause a renewal of interest in that district.

The work of placing the new machinery at the Nelson-Silver Queen goes steadily along, and it is hoped that it will all be come. Work is to be prosecuted all winter and with the coming of spring it is very probable that this property will be on the shipping list.

The work of improvement still goes on the shipping list.

The work of improvement still goes on the shipping list.

The new boilers for the Magnolia-St. Louis (McGregor) property arrived over the Union Pacific Tuesday and have been imposed as a still and the property of the week. It is very probable that this work of improvement still goes on the shipping list.

The new boilers for the Magnolia-St. Louis (McGregor) property arrived over the Union Pacific Tuesday and have been imposed in the more all the men by a smaller crop than has been estimated, at the proper to the shipping list.

The new boilers for the Magnolia-St. Loui mors of actual mergers in contemplation. Industrials connected with the copper industry were all affected by the extraordinary market for the metal, which touched record prices both in London and New York, with apparently no supply available for immediate delivery or for the nearby months. In contrast came the report of the determination of the United States Steel corporation to make no advance in prices of finished products in spite of the urgent demand. Railroad officials reported growing difficulty in taking care of the freight offering for transportation and a certain prospect of freight congestion if any obstruction occurs from bad weather. Union Pacific was the only prominent railroad stock to show notable strength. United States Steel hung about 49, to which it rose Friday afternoon on the eve of the announcement of the terms of the ore deal. A good proportion of the day's gains was yielded in a late reaction and the market closed easy.

Bonds were firm. Total sales, par value. \$2,644,000. United States old 4s declined 14 on call.

Meta! Markets. New York, Oct. 8.—There was an advance of £1 is in the London tin market to £196 for spot and £194 10s for futures, and the local market was also firm and higher, with spot closing at 42.60@42.85. Copper also had a very sharp advance in the London market, accompanied by considerable speculative excitement. Spot closed at £96 2s 6d and futures at £95 178 6d. Locally copper was very strong, scarcity of supplies and a good demand for both speculative and consuming accounts being the cause. Lake, 21.00@22.00; electrolytic, 20@00@21.00; casting, 20.00@

21.00.
Lead was a shade higher in the English market. Spot closed at £19 5s. Locally no important change was made, quotations ranging from 5.85 to 5.99.
Spelter—Unchanged; £17 9s in London. Spelter—Unchanged; £17 9s in London.
Locally it was quiet at 6.15@6.20.
Iron was higher in the English market.
Standard foundry, 56s 3d; Cleveland warrants, 55s 9d. Locally it was unchanged.

GRAIN AND PROVISIONS.

GRAIN AND PROVISIONS.

Chicago, Oct. 8.—Covering by shorts was the chief cause of a firm market today, at the close of the wheat market. Final quotations for the December delivery showed a net gain of %. Corn was up a shade. Oats were 10 higher and provisions up %65c to 75c.

During the early part of the day sentiment in the wheat pit was bearish and prices showed a moderate decline. Toward the noon hour, however, a stronger tome developed and throughout the remainder of the session the market held looking for mining investments and every time anything is found that looks all right a deal is made. He believes the country is about the best, as respects mineral resources, there is in the world.

DON'T LET YOUR MONEY LOAF.

If you have much or little money, better have it earning something. Remember, all fortunes had their foundation laid in saving, and money makes money only when it is put to work.

put to work.

It isn't thrifty to let your money lie idle, particularly when a strong financial institution would pay you four per cent per annum interest on it, compounded semi-annually. We are doing this for hundreds. are doing this for hundreds.

UTAH SAVINGS & TRUST CO., NO. 160 MAIN STREET, SALT LAKE CITY.

firm. The chief bearish factors affecting the market at the opening were low-er cables, liberal receipts in the northwest and an increase of nearly 2,000,000 bushels in the world's shipments compared with those of the corresponding week last year. A special feature of the world's movements was the relative magnitude of the special feature of the world's movements was the relative magnitude. nitude of shipments from Russia and from Danubian ports, total shipments from these places being over 5,000,000 bushels. The early weakness was due as much to a slack demand as to any

bushels. The early weakness was due as much to a slack demand as to any selling pressure, and consequently trading was quiet during the first hour. Later in the day the demand became more active, shorts and a local bull being active bidders. A report from Duluth claiming that considerable wheat had been sold there for export strengthened the market here. The close was strong, December opened 14.0% lower at 73% to 73%, advanced to 74½ and closed at 74½.

The corn market was easier at the opening because of selling by cash houses. Excellent weather for the maturing of the new crop was the chief weakening influence. During the last haif of the session the market became more in sympathy with the strength of wheat, but the volume of trading was not large. Commission houses were the chief buyers. The market closed firm. December opened 16.0% lower at 42½, sold off to 42 and advanced to 42½. Finai quotations were at 42½.

Favorable weather in the northwest for the movement of the new crop had a depressing effect on the oats market early in the day. Pit traders and some small holders were the chief sellers. Later in the day active demand by commission houses caused a firmer feeling. December opened 160 lower at 34, sold off to 33% and then advanced to 34½. The close was at 34%.

Provisions were easier at the opening, because of a decline of 5 cents in the price of live hogs. Later sentiment became somewhat bullish and prices made a moderate advance. Covering by shorts in October lard was a feature of the market. There was also some buying for foreign account. At the close January pork was up 7½c, lard was up 2½.05c and ribs were 5.07½c higher.

The leading futures ranged as follows:
